

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or handling tobacco.

### ENVIRONMENTAL HAZARDS

Do not apply directly to or otherwise permit this product to come into contact with any crop plants, as injury may result. Wash spray equipment after each application.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store away from food and feedstuffs. Handle with care. Store in original container and place in locked storage area. Wear protective clothing and use in well-ventilated area. If spilled, wash down with water. May cause skin damage. Do not get on skin, clothing or in eyes. If contact occurs, wash thoroughly.

**PESTICIDE DISPOSAL:** Securely wrap original container. Rinse thoroughly before discarding in trash.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse this container to hold materials other than pesticides or dilute pesticides (rinsate). After emptying and cleaning, it may be allowable to temporarily hold rinsate or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state.

This product under field conditions, has shown to be effective in controlling a broad range of algae. The triethanolamine in this product prevent the precipitation of the copper with the carbonates or bicarbonates in water.

### DIRECTIONS FOR USE

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

This product is made especially to control growth of algae in all types of swimming pools. Its long lasting action will control existing algae and subsequent doses will control recontamination by algae. Treated water can be used immediately ...no waiting.

This product comes concentrated. Dilute with at least nine parts of water before applying. Pour required amount of this product into plastic watering can, fill with water and sprinkle around edge of pool. Apply initial treatment to a freshly filled pool or at first visible signs of algae growth.

DILUTION CHART FOR SWIMMING POOLS		
SWIMMING POOL CAPACITY	INITIAL TREATMENT	TREATMENT ONCE EVERY TWO WEEKS
5,000 Gal.	2 Ounces	1 Ounce
10,000 Gal.	4 Ounces	2 Ounces
20,000 Gal.	8 Ounces	4 Ounces

**This product involves no waiting. Swim immediately after treatment. Do not use in pools where minerals present a problem**
