

pH Minus lowers the pH of swimming pool water. It also lowers the total alkalinity of swimming pool water. The ideal pH range is 7.2-7.8. A pH in this range will:

- Allow your sanitizer to work most effectively
- Reduce equipment corrosion
- Reduce eye irritation
- Reduce skin dryness

DIRECTIONS FOR USE:

It is a violation of State law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONS BEFORE USE:

TO LOWER pH:

1. Measure the pH of pool water with a test kit.
2. Use the table shown to determine the correct amount of this product.

DOSAGE pH MINUS IN OUNCES

POOL VOLUME IN GALLONS	pH 7.8 - 8.0	pH 8.0 - 8.4	pH Above 8.4
2,500	1 oz.	2 oz.	3 oz.
5,000	2 oz.	4 oz.	6 oz.
10,000	4 oz.	8 oz.	12 oz.
20,000	8 oz.	16 oz.	24 oz.

USAGE: Broadcast **pH Minus** over the deepest part of the pool. In shallow pools (4 ft. or less), dissolve product in a pail of water before adding to pool. Always add product into water.

HOW TO LOWER ALKALINITY: Keep the total alkalinity between 80-120 parts per million (ppm). Each month, test for total alkalinity with a test kit. If alkalinity is high:

1. Add 2 lbs. of **pH Minus** for each 10,000 gallons of pool water to lower alkalinity 10 ppm.
2. Keep the circulation pump running.
3. Add this product in one spot at the deep end of the pool.
4. **DO NOT** apply near walls and metal fixtures.
5. Repeat each day until desired alkalinity is reached.

PRECAUTIONS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER - POISON, CAUSES SEVERE BURNS

- May be fatal if swallowed.
 - Irritating to nose and throat.
 - **Do Not** breathe in dust.
 - Causes severe burns.
 - Causes skin and eye damage.
 - **Do Not** get in eyes, on skin, or on clothing.
 - **Do Not** handle with bare hands.
 - Wear goggles or face shield.
 - Use rubber gloves.
 - Remove and wash contaminated clothing before reuse.
 - **Do Not** add water to product in container (This may cause a severe reaction).
 - **Do Not** mix with other pool chemicals.
 - **Do Not** apply near metal fittings or near pool skimmer.
 - **Do Not** add more than 32 ounces for each 10,000 gallons of pool water at any one time.
- If more is needed, wait 24 hours, then check the pH and add the needed amount.

FIRST AID:

EXTERNAL: Flush with water for 15 minutes.

INTERNAL: Drink large quantities of water for 15 minutes. Follow with milk of magnesia, vegetable oil or beaten eggs. Call a physician immediately.

IF IN EYES: Wash with water for 15 minutes. Get medical attention promptly.

STORAGE AND DISPOSAL:

Keep this product dry in its tightly closed container when not in use. Store in cool, dry, well-ventilated area. Keep away from heat or open flame. **Do Not** reuse empty container. Rinse empty container by placing it underwater in the pool. Repeat several times. Recycle if possible or place in trash collection. **Do Not** contaminate food or feed by storage, disposal, or cleaning of equipment.

EMERGENCY HANDLING:

In case of contamination or decomposition:

1. **Do Not** reseal container if the product gives off heat, gives off hazardous gases, bubbles.
2. Isolate it (if possible).
3. Flood decomposing product with large amounts of water to dissolve this product.
4. Throw away the container and any contamination material in an approved landfill area.

CA EPA REG. NO. 56890-50002

PH MINUS 12 lbs.
