ENVIRONMENTAL HAZARD: This product is toxic to fish.

open flame or in car. Do not mix with soap, anionic detergents or oxidizers.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Please read entire label and use strictly in accordance with precautionary statements and directions. This product requires no special equipment for treating swimming pool water. The correct use dilution may be added directly to the pool in any spot or added to the water circulation equipment. This product works the best when added by itself directly to pool water.

#### INITIAL APPLICATION FOR SWIMMING POOLS:

1. Backwash the filter thoroughly, 2. Vacuum algae debris and thoroughly brush pool, 3, Add 26 ounces of this product to each 50,000 gallons of water or ratio thereof. 4. Vacuum pool after 24 hours to remove dead algae. 5. If algae is still visible repeat dose as necessary until pool is free of visible algae. 6. Once algae are under control, clean filter and return to normal operation.

50,000 gallons of water every 3-5 days or as needed.

BOOSTER APPLICATION: Add 6.5 ounces of this product in 50,000 gallons of water after a heavy or prolonged rainfall or when there is a heavy bathing load. The above directions must be followed even when the pool is not in use. If algae growth is noticeable, apply initial dose. VACATION TREATMENT: When you are going to be away for one week or more add 4.8 ounces of this product per 10,000 gallons of water for every week unattended. Pour product around the edges of the shallow end of the pool, if shock is also being applied in the deep end of pool.

This product is compatible with most chemicals normally used in swimming pool maintenance: however, in its concentrated form, this chemical must not come in contact with high concentrations of chlorine or any other oxidizer. DO NOT MIX THIS PRODUCT AND CHLORINE OR ANY OTHER OXIDIZER TOGETHER before adding to the pool. These chemicals must be handled separately. This product was formulated to complement most swimming pool sanitizers. This product is not a stand alone product. It must be used with either halogen based or non-halogen based pool sanitizers.

### INSTRUCTIONS FOR USE WITH HALOGEN BASED POOL SANITIZERS:

This product is formulated to complement most swimming pool sanitizers. When using other products as outlined in Directions For Use on those products, always follow Directions For Use of those products. This product is effective against the growth of algae. This product is efficient and non-staining when used as directed.

This product will not evaporate and its algae fighting abilities actually increase as pool water temperature increases. Ensure all pool equipment is working properly. Backwash the filter system following manufacturers directions. Adjust pH between 7.2-7.6. Adjust chlorine residual to 1-3 ppm. In a chlorine treated pool, add stabilizer to establish a minimum level of 40-50 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add stain and scale inhibitor to prevent staining of pool surface due to metals. Check chlorine residual and adjust to 1-3 ppm. Maintain sanitizer residual in accordance with label directions found on your sanitizer of choice. When using PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or other products as outlined in directions for this product. always follow directions on those products. Add this product directly into pool by pouring around entire outside perimeter of pool. Allow the filter to run for at least six hours after adding algaecide. During this period, swimmers must not be allowed into the water.

## OPTIONAL INSTRUCTIONS FOR USE WITH NON-HALOGEN BASED POOL SANITIZERS:

This product is formulated to complement swimming pool water being treated with the BioGuard® Softswim System, Bacquacil and other non-halogen systems. When using other products as outlined in Directions For Use for this product, always follow Directions For Use of those products. This product is efficient and non-staining when used as directed. This product will not evaporate and its algae fighting abilities actually increases as the pool water temperature increases. The residual effectiveness of this product tends to stabilize the total chemical treatment system. Ensure all pool equipment is working properly. Backwash the filter system following manufacturers directions. Adjust pH between MAINTENANCE APPLICATION: Add 6.5 ounces of this product in 7.2-7.6. Check for metals and if present add stain and scale inhibitor to prevent staining of pool surface due to metals. Add this product directly into pool by pouring around entire outside perimeter of pool. Allow the filter to run for at least six hours after adding algaecide. During this period, swimmers must not be allowed into the water.

# STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. PESTICIDE STORAGE: Store in original containers and place in locked storage area. Keep from freezing.

SPILL OR LEAK PROCEDURES: Small spills may be monned up or flushed away with water or absorbed on some absorbent material and incinerated.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Triple rinse. Then dispose of in a sanitary landfill or by other procedures approved by state and local authorities.
