

OPTIFLO[®]

Aboveground Pool Pumps

The aboveground pool pump
that floats above all others.
And keeps swimming with standards.

The new Department of Energy (DOE) regulations are driving higher minimum efficiency standards in the industry. So Pentair has adjusted, by making our single-speed pumps the first and only Pentair pump to use Totally Enclosed Fan-Cooled (TEFC) Motor—to save the most electricity possible and optimize hydraulic horsepower without sacrificing performance.

KEY FEATURES

- **Optimized performance**

Means clean, clear water and long lasting equipment.

- **Proprietary TEFC Motor**

Improved design optimized for aboveground pools delivers higher quality and efficiency than previous models.

- **Variety of Models Available**

Single Speed with on/off switch and cord options to meet your exact requirements.

Oh, and it's a summer breeze to maintain. All in all, a water-wise way for aboveground pool owners to remain carefree, and confident well after the regulations take effect.

OptiFlo Aboveground Pool Pump

Opt in to the optimized OptiFlo. It's as economical as it is effortless.

The enhanced OptiFlo single-speed pump gives aboveground pool owners a high-performance, low maintenance, easy-to-operate way to meet the DOE's energy efficiency requirements. And provides a long, trouble-free life.

OTHER KEY FEATURES

- **Cam and Ramp™ Lid**
Locks in place with a quarter-turn.
- **See-through lid**
Permits easy inspection of the large strainer basket which extends time between cleanings.
- **Fiberglass-reinforced pump components**
For superior strength and long life.
- **Easy-access discharge port**
Converts between horizontal and vertical for fast, in-field service, minimizing labor expense.
- **Metal motor base**
For strength, durability and years of service.
- **Easy-to-remove drain plugs**
For fast winterization.
