

# Doheny's

Doheny's,

I just wanted to reach out to say hello and thank you for the wonderful job you did with helping me with the purchase of our new pool liner. It took several weeks for all of the parts I needed to come in, mainly because of delays due to COVID but we were finally able to begin installing the new liner last weekend (between bouts of rain and a tropical storm thrown into the mix) but we were able to get it all installed and put together. The new liner is not only beautiful but was cut and seamed perfectly so I certainly am very happy and grateful for a job well done by the vinyl manufacturer. It was a lot of hard work with about 98% of it done by myself (the wife did come out and helped me bead in the liner so I'll give her that 2% :-), but overall I couldn't be happier or more satisfied with the end result.

I have attached some photos of what the old liner looked like and how the pool looks now with the new one installed and filled with water. I think you would agree it is quite a difference!! Anyway, feel free to share the note and photos with your Sales Manager or Director of Sales and let them know you have helped gain a new Doheny customer for life. We are also in the market to order a new winter cover so if you can work with me on that as well that would be great. Let me know what the lead time is for those generally as I usually close up the pool in mid-to-late October and would like to get a cover ordered so it arrives in time for closing. Again, thank you so much for all of your help and best of luck and good fortune to you!!

Best Regards,  
Joe Barbera
