## Others can claim it. Meyco owns it.

Others may claim it, but in 1957, Fred J. Meyer, Jr., the founder of Meyco Products, invented the safety pool cover. In 1960, he was awarded a U.S. patent for his groundbreaking design. With more than 55 years of innovation under our belts, you can have confidence that a Meyco cover will out-perform the competition, every time.

## Custom Design

Meyco's in-house design engineers can tailor a cover for even your most unique poolscapes. Raised walls, elevated spas, vanishing edges, secret grottos, in-pool fountains – even multi-level pools are protected with Meyco covers. Plus, our patented polyguard custom fit means no gapping, no messy ropes or pillows, no wrinkles and no unsightly water bags.

## 12-Year Warranty

Our consistent manufacturing processes ensure your Meyco pool cover will fit perfectly and last over the long haul. That's why we offer one of the most generous warranties in the industry. Every Meyco cover is backed by a 12-year warranty. Our covers are built tough and last long.

## MeycoLite™

### Key Advantage: Lightweight, low maintenance

The genuine, lightweight, original mesh allows water to drain from the surface of the cover, so leaves dry up and blow away.

## RuggedMesh™

### Key Advantage: Cleaner water & less maintenance

Solid cover performance from a mesh cover weighing almost 50% less than a typical solid safety cover. The special weave allows water to drain from the surface while filtering out finer particles.

## PermaGuard™

### Key Advantage: Super-clean pool openings

This solid pool cover provides the protection you need to ensure super-clean pool openings.
